**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Kawachi (JP363089348).

As to Claim 6, Kawachi teaches in Fig. 1 a roll-shaped printing medium, 1, comprising a printing surface, Fig. 2 item 2, on which images are to be printed, "A"; in the Abstract and in Fig. 2, Kawachi teaches a printing portion that is releasably adhered, 2, and a release portion, 3, for holding the adhered printing portion, 2, where the printing portion, 4, has been cut off, by a process of Half-cutting as read in the Abstract, in advance along the conveying direction of the image printed by the printing means, Fig 1, at an interval corresponding to a dimension (size) of the image in a width direction perpendicular to the conveying direction, Fig. 1.
